Site Access Cards

Use Your BHP Site Access Card Correctly

Where to Use Your Access Card?

- **Airport –** Entrance door of the terminal
- **Camp Site –** Bus pick-up and drop-off
- **Boom Gates –** For drivers going in and out of site locations
- **Buses –** Tag on and tag off for headcount only

Why it Matters?

- Your access card records your entry and exit from site.
- Tagging on and off with your access card helps to keep you safe and helps BHP to keep track of the headcount onsite.

Remember...

- Carry your access card at all times.
- Tag on before work and tag off when leaving.
- If your access card does not work or you hear a different sound when tagging on or off, stop and tell your Supervisor.
- Repeated missed tag-ons or tag-offs can affect headcount and site safety.

Always carry your site access card and use it correctly.
