

A Workforce You Can Count On. Impact You Can Measure.

Do You Need a Reliable and Professional Workforce?

i24s is a 100% Aboriginal-owned, Supply Nation certified provider of **white-collar and blue-collar labour hire**.

We mobilise work-ready, culturally supported teams for clients in the Mining, Resources, Energy, Ports & Maritime, Water & Wastewater, and Transport & Infrastructure sectors.

Benefits for You & Your Workforce

- **Rapid Mobilisation:** Local, FIFO and DIDO talent for all stages of capital works, operations and maintenance (shutdowns).
- **Work-Ready Talent:** Canvassed candidates, who are professional, reliable and site-ready (including work health and safety).
- **Winning Employee Experience:** Lower turnover, safer sites, culturally informed onboarding and ongoing pastoral care.
- **Procurement Confidence:** Verified Aboriginal-owned business and alignment to WA Aboriginal Procurement Policy (APP) settings – to streamline evaluation and audits.

The WA government APP settings have enabled targets to be surpassed year-on-year, awarding hundreds of contracts and hundreds of millions in value to companies like yours. Clear evidence that partnering with Aboriginal businesses creates tangible outcomes.

- **Local Economic Value:** We prioritise local hiring and training to strengthen regional workforces and capability.
- **Demonstrable Social Impact (ESG) Outcomes:** Tangible Indigenous participation and 'local buy' procurement metrics you can report on, in your ESG and RAP reporting.

i24s has a successful track record – long-standing experience in providing talent for businesses and projects across WA – long distances, remote locations, local engagement, complex rosters and tight windows – no challenge is too big.

We bring integration and scale to clients, paired with the authentic Aboriginal leadership and community connection.
